

## GULFSTAR 43 "SU

**Price :** 49,000.00€

**Year :** 1973

Gulfstar yachts, of fibreglass construction, are principally sea going yachts but the dimensions of Sundance would allow you to navigate on the inland waterways of Europe. The masts were removed in 2014 and this single engine model has been modified to include a wheelhouse cabin and a lovely rear swim platform with easy access. The current owners lived on board permanently for many years and have cruised the oceans and seas in comfort. This boat must absolutely be seen in order to appreciate its numerous qualities and its generous living space. Sold with a full inventory.

**Length** 13.7m

**Breadth** 4m30

**Draft** 1m20

**Air draft** 3m20

**Category** Mixed - C
